

Attn: Chief Executive Officer
City of Gosnells
PO Box 662
Gosnells WA 6990

Dear Sir,

RE: Poultry Farms in the Maddington and Kenwick Areas

I write to you to express my concern over the poultry farms that are in operation in the Maddington and Kenwick areas.

The poultry farms are causing unreasonable impacts on the community.

The poultry farms produce noxious odours that impact my quality of the life. I am unsure that the noxious odours are safe and am concerned that they can be dangerous, offensive and injurious to health.

I request that the City of Gosnells immediately investigate the operations of the poultry farms to establish that they are operating to best practice, and to establish by a suitable scientific study, that the impacts of the poultry farms are not dangerous, offensive, or injurious to health.

I also request that the City of Gosnells establish a community reference group that will establish the framework for the above investigation and the reporting of information back to the community. This reference group should be made up of a suitable number of community members, and elected members. It is suggested that the Bickley Ward Progress and Ratepayers Association (Inc.) should have at least two representatives on the reference group.

Yours Sincerely,

Name: _____
